EAGLE ONE IS ECO-SMART

The original institutional outdoor furnishings recycled HDPE manufacturer!

7,416 plastic milk jugs

7,416 plastic milk jugs

Environmental Commitment

Eagle One's environmental commitment is unparalleled within the furniture industry. Our proprietary Greenwood® substrate from which we manufacture our furnishings is derived, in-full, from post-consumer bottle waste (HDPE). Every 10 pounds of Greenwood® Lumber recycles approximately 400 one-gallon plastic bottles. By diverting this waste stream, Eagle One is helping reduce the harvesting of our eco-system as well as the gyre pollution in our oceans. We are extremely proud to be on the leading edge of sustainability in the casual furniture industry and we feature our sustainability benefits and LEED contributions prominently in our trade advertising.

Ultimately, Eagle One has built its reputation as an outdoor furniture leader on these key distinctions:

- **Zero Maintenance;** zero painting/staining/ refinishing, features easy clean with soap & water and is power washer friendly.
- **Lifetime Use;** Eagle One's Greenwood® plastic lumber is guaranteed for 25+ years to not rot, splinter, mold or decay.

- **Superior Comfort & Beauty;** Built with ergonomic comfort, Eagle One's Greenwood® plastic lumber is co-extruded with a tough skeletal dura-membrane which is dent, scratch, UV and graffiti resistant for long term superior aesthetics.
- **Priced Right;** our outdoor furnishings are about the same initial cost as hardwoods, but a fraction of the maintenance cost; lower than cast aluminum or steel it outperforms all other materials.

Eagle One's manufacturing practice is highly efficient and virtually eliminates waste by reusing or incorporating scrap and previously used material into subsequent designs. The re-generative properties of Greenwood® HDPE make for a true cradle-to-cradle manufacturing process – sustainable and considerate of life and future generations.
